

THE LEAF TERMINATOR®

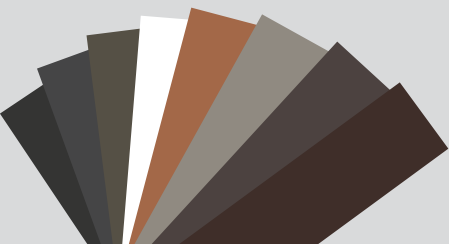

Outthinking Mother Nature™

Gutter overflows can quickly cause damage to landscaping, ruin basements and destroy the foundation of a home or structure. Improperly cared for gutters can also lead to other serious and possibly more unnoticeable problems, including, but not limited, to mold, mildew and rot. The Leaf Terminator® has a patented design and features our exclusive perforation pattern that allows water to flow fluidly while stopping leaves and debris from clogging gutters. This sleek look adds to the aesthetics and value of your home while protecting it from damage. The Leaf Terminator® has passed rigorous independent testing and is certified to endure 110 mph winds (category 2 hurricane) with no lift or movement, and can withstand 22 inches of rainfall per hour. It will perform as promised even in the harshest weather conditions, keeping you safely off your roof!

- 096 perforated holes
- Compatible with all roof styles
- One-inch overlap at each connection
- Easy installation over existing gutters – no mounting brackets or hangers required
- Prevents leaves and debris from entering gutters
- Reduces home and building maintenance costs
- Will not void your shingle warranty
- Made in the USA
- 20-year transferable paint finish warranty
