

THE SOLUTION®

The Cost-Effective Gutter Protection System™

Gutter overflows can quickly cause damage to landscaping, ruin basements and destroy the foundation of a home or structure. Improperly cared for gutters can also lead to other serious and possibly more unnoticeable problems, including, but not limited to, mold, mildew and rot. The Solution® is a cost-effective gutter solution that protects against clogs due to debris, and its low profile design makes it virtually invisible from the ground. There are two styles of Solution Series – the Fascia Mount, which is available in three sizes, and the Versatile Roof Mount for under the shingle application. It can handle tremendous amounts of water and wind while repelling leaves. The Solution® has passed rigorous independent testing and is certified to endure 110 mph winds (category 2 hurricane) with no lift or movement, and can withstand 22 inches of rainfall per hour. It will perform as promised even in the harshest weather conditions, keeping you safely off your roof!

- Available in three different sizes to accommodate most gutters
- Cost-effective with superior protection
- Easy installation over existing gutters
- Reduces home and building maintenance costs
- Will not void your shingle warranty
- Made in the USA
- 5-year transferable paint finish warranty
