

THE VERSATILE SOLUTION™

Gutter overflows can quickly cause damage to landscaping, ruin basements and destroy the foundation of a home or structure. Improperly cared for gutters can also lead to other serious and possibly more unnoticeable problems, including, but not limited to, mold, mildew and rot. The Versatile Solution™ is an economical gutter protection solution that protects against clogs due to debris, and its low profile design makes it virtually invisible from the ground. There are two styles of the Solution Series – the Fascia Mount, which is available in three sizes, and the Versatile Solution™ is for under the shingle installation. It can handle tremendous amounts of water and wind while repelling leaves. The Versatile Solution™ has passed rigorous independent testing and is certified to endure 110 mph winds (category 2 hurricane) with no lift or movement, and can withstand 22 inches of rainfall per hour. It will perform as promised even in the harshest weather conditions, keeping you safely off your roof!

- An economical gutter protection solution
- Easy installation over existing gutters
- Prevents leaves and debris from entering gutters
- Reduces home and building maintenance costs
- Will not void your shingle warranty
- Made in the USA
- 5-year transferable paint finish warranty

AVAILABLE IN 6 COLORS
